UNDERSTANDING NATIONAL UNIVERSITY

CATEGORY

While many universities offer online courses for students still working, few actually have programs to help educate especially those in the public service field.

OPPORTUNITY: Elevate the perception of NU as a **veteran-founded university** and use influencers across all different sectors of public service.

CONSUMER

Many people are seeking education during this time and it can be most difficult for those in help industries to find the time to achieve their goals while balancing other obligations. We want to show our gratitude for their public service through the giveaway and full tuition scholarship award.

OPPORTUNITY: Partner with influencers to celebrate and give back to everyday heroes in communities across the country, bolstering National University's position as **Home of the Brave** while inspiring prospective students to pursue their purpose in the help industries.

CULTURE

Education, time, and flexibility are all priorities of many nowadays and highly dependent on one another. It is important to ensure that people know about NU's many different programs and how they work towards making education a more positive experience on students' own time.

OPPORTUNITY: Talent will discuss their own experiences with education and the role scholarships and/or flexibility played in their time and then how National University is offering both affordability through the scholarship with a wide range of course types to fit with everyone's schedule.

TALENT OVERVIEW

In partnership with National University, Fullscreen identified **11x Talent** across different verticals to create #NUGivesBack and serve as National University’s partners throughout the giveaway and scholarship drive.

THE BIG IDEA

We will create a multi-platform campaign to encourage our influencers' followers to enter in NU's giveaway and scholarship drive. While we understand 2020 is was a very unpredictable year, National University strives to be a positive light, especially as more people think about returning to school during this time.

As a veteran-founded university, we want to make those who have given their lives to public service feel appreciated and encourage others to celebrate those individuals they know as well. With NU, consumers will know that education is not that far out of reach and made easier with a university that truly cares.
